Comprehensive university that aims to create "Health" and "Future" for the people

人々の“健康”と“未来”を創造する総合大学

For more than 85 years, Kyoto Koka University has been committed to education based on the Buddhist spirit. We emphasize the "Truthful Heart." A heart of compassion. A heart that is more than willing to help. With this philosophy as a basis, we practice education that is more attuned to the needs of each student with the aim of realizing a future of "Well-Being" in which all people can live healthy lives.

京都光華大学では、これまで85年以上、仏教精神に基づく教育に取り組んできました。大切にしているのは校訓「真実心」、つまり思いやりの心、よりそう心です。私たちは、この理念によって、すべての人が健やかに暮らせる“Well-Being”な未来の実現を目指し、学生一人ひとりに、そして地域によりそう教育を実践しています。

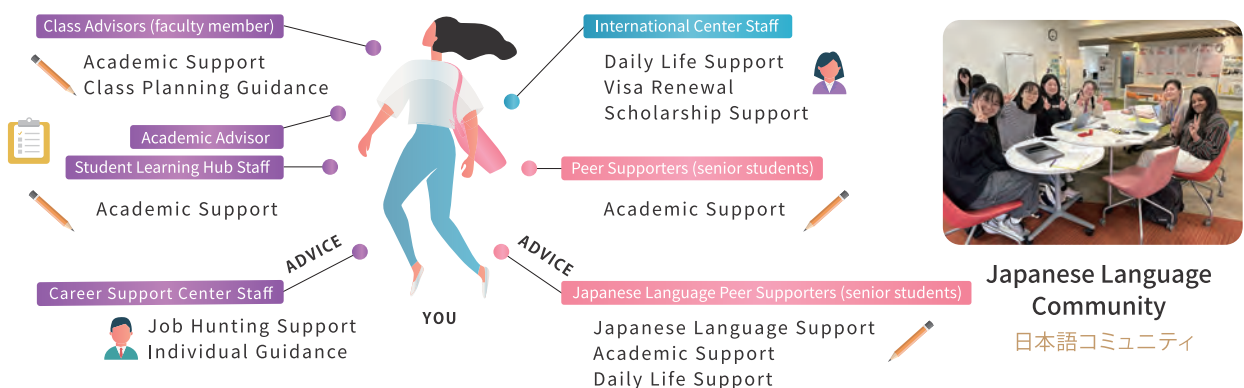

Environment that closely supports international students

外国人学生によりそう環境

1 Robust Support System 手厚いサポート

We have a team of seven people, including class advisors and staff from the International Center, to support every international student and ensure a comfortable university life. For language support, in addition to regular classes such as “Japanese Language”, “Introduction to Japan”, and “Business Japanese”, there is an extracurricular activity called “Japanese Language Community” held two or three times a week, in which “Japanese Language Peer Supporters” provide learning support. Furthermore, the Career Support Center provides individualized guidance to international students seeking employment in Japan.

外国人学生一人ひとりに対し、クラスアドバイザーや国際交流センタースタッフなど、7名体制で学びや生活をサポートします。日本語支援としては、正規授業「日本語」「日本事情」「ビジネス日本語」等に加えて、課外活動として、週に2~3回、上級生の「日本語ピアサポーター」が学習支援を行う「日本語コミュニティ」があります。また、就職支援センターが外国人学生対象に日本での就職支援や個別指導を丁寧に行っています。

2 Learning about Traditional Japanese Culture 日本の伝統文化に関わる学び

At Koka, students will learn about Japan's traditional culture as part of their compulsory studies. Through experience-based learning, students will explore the appeal and techniques of traditional arts such as etiquette, flower arrangement, tea ceremony, and calligraphy, deepening their understanding. There are also a wide range of traditional culture clubs, such as kimono dressing.

本学では必修で日本の伝統文化を学びます。礼法、華道、茶道、書道などの魅力と技法を体験的に学び、理解を深めます。着付けなどの伝統文化のサークルも充実しています。

3 Many International Exchange and Volunteer Opportunities

豊富な国際交流・ボランティアの機会

We have events such as the “New Student Welcome Party” as an opportunity for international students to make connections with each other.

We also help students make friends by regularly holding exchange events with Japanese students, such as the “International Exchange Gathering.”

本学では、外国人学生同士がつながりを作るきっかけとして、「新入生歓迎会」などのイベントを実施しています。また、日本人学生との交流イベント「国際交流のつどい」などの定期開催で、友だち作りをサポートしています。

Along with club activities, our unique open study group “ManaBooo” is also very popular. Students work with faculty advisors and other students, and there are plenty of opportunities to meet others with similar interests and to learn together.

We also value our local community and offer a wide range of volunteer opportunities to connect with the Kyoto community. Many international students join the “Koka Liaison Club” and are active in local events, such as Kids' Cafeterias, the Kyoto Marathon, and more. Students are able to deepen their relationships not only with each other but also with the local community.

課外活動も盛んで、サークル活動と並んで、本学独自の自由参加型学習グループ「学Booo(まなぶー)」も人気です。教職員アドバイザーとともに学生主体で活動し、同じ興味を持つ仲間と出会えるチャンスが豊富にあります。

地域とのつながりも大切にしており、京都の地域社会とつながるボランティアの機会も充実しています。多くの外国人学生が「光華リエゾンクラブ」に登録し、地域イベントや子ども食堂、京都マラソンなどで活躍。学生同士はもちろん、地域の方々との交流も深められます。

Aiming to become an occupational therapist who can work with children to the elderly and even in disaster situations

The program trains occupational therapists—professionals who provide treatment to people who are unable to perform work due to illness, injury, dementia, or various other reasons. Occupational therapists provide treatment not only for physical health, but also for mental health. We develop and train our students to care about each and every patient.

1 Our faculty includes a specialized occupational therapist with expertise in special needs education, one of only 13 specialists* in Japan. Learn practical child rehabilitation *As of March 2026

In addition to regular occupational therapy, we offer occupational therapy through "play," "cooking," "music," and other activities that nurture children's spontaneity and enable them to build success experiences. Students learn the skills necessary to support children's "mind," "body," and "life" from various perspectives. The program trains occupational therapists who are well-skilled in supporting children with developmental disabilities.

3 On-site hospital training at an overseas university Learn international rehabilitation and become an occupational therapist who can work worldwide

In the midst of globalization, occupational therapy targets people of diverse nationalities and cultures, and therapists work alongside international professionals. This is why our university focuses on developing human resources who can work not only in the medical welfare and educational fields but also in the private sector and international organizations. In the "International Rehabilitation" class, students travel to Singapore to attend classes in English and participate in practical training to visit local hospitals to acquire a broad and international viewpoint. *Attendance is not mandatory.

4 Help students overcome their weak areas and lead each student to success Early Clinical Training and National Examination Preparation

Comprehensive clinical training, which is often conducted in the fourth year at other training schools, is incorporated into the curriculum of the third year at our school. This allows students to concentrate on preparing for the national examination from the early stages of the fourth year. In terms of preparation for the national examination, we provide tailored guidance to each student from the first year to help them pass the exam.

4 Aiming for all students to take and pass the national examination Comprehensive support for the national examinations

From the first year, course contents and preparation for national examinations are linked to deepen basic academic skills and understanding of specialized subjects in a cyclical manner. In addition, teachers in charge of the course regularly check the progress of students and provide individual guidance. From the third year, students are able to overcome areas of weakness through small-group remedial classes tailored to each student's level of proficiency.

After graduation, we continue to provide personal counseling and post-graduation seminars to support students in clinical work, going on to graduate school, and those aiming to re-enter the workforce, or re-taking the national examinations.

全員受験・全員合格を目指す 国家試験への手厚いサポート

1年次から授業内容と国家試験対策を連動させ、基礎学力と専門科目の理解を循環型で深めるとともに、担当教員による定期的な進捗確認と個別指導を行います。3年次からは、学生の習熟度に合わせた少人数制の補習で苦手分野を克服。卒業後も、臨床業務、大学院進学、再就職、国家試験の再挑戦をサポートする個人相談や、卒後セミナーを実施しています。

Examine the relationship between culture and healing through experience

Kyoto Cultural Psychology

Students will examine the components of "Kyoto-ness" from a psychological viewpoint. Through fieldwork such as making Kyoto sweets, students will experience and deepen their understanding of what makes Kyoto unique. Also, through the experience of making incense bags and devising a plan for a Journey of Kyoto, students will consider the relationship between Kyoto culture and healing. This class incorporates a wealth of off-campus experiential learning opportunities that allow students to understand Kyoto culture through independent experiences and to realize that they are living in the midst of the culture.

文化と癒しの関係を体験を通じて考察
京都文化心理学

「京都らしさ」の構成要素を心理学的に考察し、京菓子作り体験などのフィールドワークを通して、「京都らしさ」を実感理解を深めます。他にも、香袋作り体験や京都の旅のプラン考案などを通して、京都文化と癒しの関連性を考えます。主体的な体験によって京都の文化を理解し、自分が文化の中に生きていることを実感する、学外での体験学習を豊富に組み込んだ授業です。

Creating a new society by connecting people, communities, and the world An entirely unique department of sociology!

Our department goes beyond just solving social problems. Under the slogan of "Co-creation," we aim to create a 'Well-Being' society where everyone can live happily, by combining diverse ideas and strengths. Students will focus on the practical application of "design thinking", enabling them to discover and solve problems.

人・地域・世界をつなぎ、新たな社会を創る どこにもない社会学部が誕生

本学科では、社会問題の解決に取り組むだけではありません。「共創」を合言葉に多様なアイデアや強みを掛け合わせ、誰もが笑顔で生きられる「Well-Being」な社会を目指すため、文理融合型の学びや、既存の学科と連携した学びを実現し、問題発見と解決へ導く「デザイン思考」を実践重視で学びます。

Childcare Studies (Comprehensive Expression II): Collaborative activities with Koka Kindergarten

In order to put the expressive activities learned in class into practice in an actual childcare situation, students will perform in groups an expressive play based on picture books for the children of Koka Kindergarten, which is attached to the school. The groups will prepare for the event by exchanging opinions on how to make the activities enjoyable for the children, from the opening to the actual activities.

保育内容(総合表現II):光華幼稚園との連携活動

授業で学んだ表現活動を実際の保育の中で実践的に学ぶため、併設の光華幼稚園の園児を対象に絵本を基にした表現遊びをグループごとに行います。導入から動き方まで子どもたちがどうすれば楽しく活動できるかについてグループ内で意見を出し合い、当日に向けて準備を進めます。

"Koka Children's Club", a place of practice that fosters student independence

"Koka Children's Club" invites after school students from Koka Elementary School to the university's classrooms. Students proactively devise the content of the activities so that the participating elementary school students can acquire empathy, independence, creativity, and problem-solving skills.

3 Aiming to be a dental hygienist needed in the modern age Multi-professional education utilizing a wide range of professional training systems

In recent years, dental hygienists have been required to provide oral health care for patients not only in dental clinics but also in hospitals, nursing care facilities, and patient's homes, as well as working in collaboration with multiple professions, which comes with the demand for more advanced and diverse knowledge and skills. That is why we provide multidisciplinary education utilizing the breadth of our top-level professional training in the fields of health, medicine, and welfare in collaboration with Kyoto Koka University.

今求められる歯科衛生士をめざす
幅広い専門職養成体制を生かした多職種連携教育

近年、歯科衛生士の業務は歯科医院だけでなく、病院、介護施設、在宅での口腔衛生管理などで、より高度で多様な知識と技能とともに多職種と連携した患者さんの口腔ケアも求められるようになりました。だからこそ、本学では併設の京都光華大学と連携し、京都滋賀エリアトップレベルの保健・医療・福祉分野の専門職養成の幅の広さを生かした多職種連携教育を行います。

4 Develop broad knowledge and strong communication skills Students can take a wide variety of courses at the affiliated university

Specialized knowledge and skills alone are not enough to provide appropriate oral health care for a diverse range of patients. We offer many classes that foster independence by incorporating active learning and a wide variety of subjects to develop communication skills. Students can also deepen their education by taking a wide range of courses at Kyoto Koka University, which is also located on-site.

● Graduated from Department of Contemporary Life Design
Name MY (Born in Vietnam)
Works for Honda Cars Asahikawa Corporation
 *As of May 2025

I was able to broaden my perspective and think deeply about my career because I was exposed to a variety of fields in my classes. The scholarship program for international students was also very helpful, and I had many opportunities to communicate with Japanese students, which greatly improved my Japanese language skills. Koka's unique education in traditional Japanese culture was especially wonderful.

 勤務先(会社名):株式会社ホンダカーズ旭川 ※2025年5月現在

授業で様々な分野に触れられるので、自分の視野を広げ、キャリアへの考えを深められました。留学生向け奨学金制度も助かりましたし、日本人学生とのコミュニケーション機会が多く、日本語力が大きく伸びました。光華の特色である日本伝統文化教育が特に素晴らしかったです。

● Department of Psychology
Name TERESA (Born in Indonesia)

Kyoto Koka has a wealth of support for international students, and I feel connected with everyone and that a community is well established. My friend and I are very much enjoying ourselves. We have joined the Kyudo (Japanese archery) club, volunteer clubs, and other clubs related to traditional Japanese beauty. I also appreciate that Japanese seniors help me with difficult assignments at the "Japanese Language Community."

心理学科 氏名:テレサさん(インドネシア出身)

京都光華は留学生支援が確かに豊富で、つながっている、コミュニティがちゃんとできていると感じます。友達と弓道や日本伝統美等のサークルやボランティアクラブに入るととても楽しんでいます。「日本語コミュニティ」で日本人の先輩が分からない課題を教えてくれるのも感謝しています。
